

## VM SUPER LIGHT

The VM Super Light frame is a single-sided LED display frame with a sleek silver border to the top and bottom edges of the lightbox. With concealed fixings on the reverse of the frame and a depth of 11mm, the LED-lit frame is available in A4 and A3 dimensions in a landscape orientation. Graphics are slid easily in and out of the frame to make updating each display as quick and simple as possible.

### KEY FEATURES

#### HIGH LUMINOSITY

Delivering 3600 Lux, this is a super bright single-sided frame

#### STYLISH DESIGN

Silver aluminium border frames each graphic

#### EASY UPDATES

Slide graphics in and out of the frame

#### DISPLAY VERSATILITY

A range of installation solutions to suit each situation

### DETAIL

The VM Super Light LED light box is one of our most versatile frames and has been designed to fit a number of installation solutions available from VitrineMedia UK including VM Cable, VM Wall and VM Box. With VM Cable and VM Wall, numerous VM Super Light frames can be suspended or fixed in rows to create stylish displays which can be positioned along walls and column areas.

For portable installations, VM Super Light is compatible with two unique free-standing display stands, VM Box and VM Mobile Stand Easy Clip. These two stands are particularly suitable for window displays and temporary display requirements such as events and exhibitions. Using an innovative fixing system, VM Super Light frames are easily clipped on and off the stands to create flexible displays.
