

VM TWO

A modern, silver-white lightbox with hidden fixings, VM Two delivers all the style and engineering of the VitrineMedia UK frames at our most competitive prices. The LED display frame features double-sided illumination which means graphics can be placed at either side of the internal light source to maximise each display space.

KEY FEATURES

HIGH LUMINOSITY

Delivering 5000 Lux, this is a highly luminous lightbox

DOUBLE-SIDED

Maximise display space by advertising on both lit sides

HIDDEN FIXINGS

Suspend frames with the innovative VM Cable solution

SLIM PROFILE

At just 9mm across A4 to A0 formats

DETAIL

With innovative, hidden fixings, the VM Two frame is compatible with our VM Cable solution which enables frames to be suspended within a window display. The frames appear to float on the cables due to the internal fixing system. VM Two window compositions created with our cable solution can be planned to create a perfect fit for each window using our specially designed inter-frame connectors which are available in three different lengths. Available in landscape and portrait orientations in A4 to A0 size frames, VM Two frames can be hung in a combination of sizes and orientations using the inter-frame connectors.

With a 5000 Lux light intensity, the VM Two frame is highly energy efficient drawing just 5W for an A4 frame and 35W for the largest A0 frame size.

TECHNICAL SPECIFICATION

A4 frame dimensions	335 x 248mm
A3 frame dimensions	458 x 335mm
A2 frame dimensions	632 x 458mm
A1 frame dimensions	875 x 632mm
A0 frame dimensions	1251 x 903mm
Depth	9mm
Combine panel formats	Portrait and landscape frames in all sizes are compatible with one another
Electric tension	24 Volts
LED light intensity	5000 Lux
Number of LEDs	135 (A3 frame)
Fixing system	Internal
Double-sided lit panel	Yes
Watt format A4	5W
Watt format A3	7.5W
Watt format A2	10.5W
Watt format A1	26.5W
Watt format A0	35W
Compatible solutions	VM Cable, VM Dock Sleek
