

## VM MOBILE STAND EASY CLIP

The VM Mobile Stand Easy Clip is our transportable and compact unit, perfect for trade events, exhibitions and with the facility to illuminate the frames on either side of the stand, this freestanding unit optimising display spaces. This stand can be assembled and disassembled by hand, removing the need for tools and making this unit perfect for businesses on the move.

### KEY FEATURES

#### CONVENIENT CLIP ON/OFF FRAME DESIGN

Compatible with VM Two Clip frames in portrait and landscape or VM Super Light frames in landscape, these frames can be clipped on both sides of the unit, maximising display space usage. The simple clip on and clip off design of the frames enables displays to be reconfigured with ease.

#### SIMPLE TO CONSTRUCT

VM Mobile Stand Easy Clip is ideal for businesses on the move with the facility to build this unit by hand, by simply screwing the rods together and into the stand's base to construct the unit, ensuring quick and unproblematic assembling and dissembling.

### OVERVIEW

- Quick assembling and dissembling of the unit
- Lightweight and compact
- Frames illuminate once clipped on to either side of the stand
